## GENERAL REMARKS

---

*The Seminary.*—The Seminary is maintained and supervised by the Christian Reformed Church; its aim being both to make a scientific study of theology and to prepare young men for the ministry. All instruction given by the theological professors must be in harmony with the standards of the Church,—the Reformed confessional writings.

*Opening.*—The school year of 1920-21 begins the first week in September. On Wednesday, September 8, at 9 A. M., all new students must present themselves for matriculation.

*Admission.*—Every person who wishes to matriculate as a student of the Seminary must present the following. First, a written testimonial from his consistory showing that he is a church member in full communion and in good standing; secondly, a diploma showing that he is a graduate of the Seminary Preparatory Course of the Theological School and Calvin College or that he has completed an equivalent course of study elsewhere. Students who are not graduates of the Seminary Preparatory Course of our institution must secure special permission to be enrolled as students in the Seminary.

*Tuition.*—No matriculation fees are charged. The tuition fee is thirty dollars a year, to be paid in two installments. For those living west of the Mississippi or east of Ohio, tuition is only fifteen dollars per year. Students from Montana, Wyoming, Colorado, New Mexico, and from points west of these states, have free tuition.

*Examinations.*—Written and oral examinations are held at the close of every school year, the latter in the presence of the Board of Trustees. In a few subjects examinations are held at the close of the first semester. The examinations of the graduates, those in sacred history, catechetics, and poimenics excepted, and likewise the examinations of the second class in church government and American church history are conducted by the Faculty in the presence of the entire Board of Trustees. The latter body decides whether a student shall be promoted or declared eligible to a call.

*Graduation.*—Upon completing the prescribed course of study of three years, graduates are awarded a diploma. The graduation fee is ten dollars and is to be paid before the final examinations are taken.

*"Krans."*—This is a gathering of the students in Theology, occurring twice a week, at which the Professors of the Seminary preside in rotation. The exercises consist of the delivery and criticism of sermons and have for their purpose the supplementing of the courses in Practical Theology.

*Preaching of Students.*—No student of the College or of the first year in Theology is permitted to preach. This privilege is granted under certain restrictions only to members of the second and third class in Theology.

*"Corps"*.—The students of the Seminary maintain an organization called "Corps", its aim being to promote propriety of conduct and manners, to cultivate Christian character, and to foster scientific and literary effort.

*Information.*—For further information apply to the rector, Prof. S. Volbeda, 811 Geneva Ave., S. E., Grand Rapids, Mich.

## COURSES OF STUDY

### EXEGETICAL THEOLOGY

*Old Testament and New Testament Greek*

PROFESSOR JANSSEN

*Hebrew.*—The study of the Hebrew language is begun in the last year of the college course and continued through the second year in the Seminary. The first year's work in the subject is that covered by Harper's Method and Manual and Elements of Hebrew. In the Seminary Davidson's Hebrew Grammar is taken up together with the reading of portions of the historical or prophetic books for the purpose of acquiring a more extended Hebrew vocabulary and familiarity with principles of Hebrew syntax.

*Isagogics.*—Introduction to the canonical Scriptures of the Old Testament. A two hour semester course, being a study of the contents, of the question of authorship, composition, etc., of the several Old Testament books, together with a sketch of the history of Biblical criticism.

*Sacred History.*—The course presupposes familiarity with the main facts of the Old Testament record, and deals largely with the more important problems of the subject.

*Exegesis.*—Interpretation of a portion of the prophetic writings or of some of the psalms. Throughout the course emphasis is laid on the application of strictly scientific methods in exegetical study.

*New Testament Greek.*—Philological interpretation of portions of the Gospels or of the Pauline Epistles.

### NEW TESTAMENT

PROFESSOR BERKHOF

*Isagogics.*—Introduction to the canonical Scriptures of the New Testament. The several books of the New Testament are studied as to

their contents, authorship, composition, history, inspiration, and significance in the canon.

*Hermeneutics.*—The aim of this course is to give a general survey of the history of interpretation, and to discuss the principles, methods, and rules that are to be applied in the interpretation of the Bible.

*Exegesis.*—Introduction to, and interpretation of, some part of the New Testament. This course aims at developing the proper exegetical praxis.

*Sacred History.*—A general survey is made of the historical facts that are recorded in the New Testament, and their import in the history of revelation is carefully noted. The work is based on the sources.

## HISTORICAL THEOLOGY

PROFESSOR VOLBEDA

*General Church History.*—Classes I-III study Ancient Church History this year. The study of the history of the Mediaeval Church will be taken up in 1920-1921. This course seeks to present the history of the Christian Church as the background, against which the present life of the Church of God, as expressing itself in its condition, thought, and activities, must be projected in order to be properly understood and correctly appreciated. Text: Williston Walker, *A History of the Christian Church*; and Lectures.

*American Church History.*—This course is taken by Class II. Its object is to familiarize the student with the experiences through which the church of Christ in America has passed, with a view to the attitude he should assume toward the various churches with which God brings the church of his choice and love into continual contact. Text: L. W. Bacon, *A History of American Christianity*; and Lectures.

*History of the Christian Reformed Church.*—This course is based upon the assumption that an adequate knowledge of the history of the church in which the prospective minister of the Gospel expects to serve God is imperative, if he is to discharge the duties of the desired office conscientiously, efficiently and acceptably. Text: Henry Beets, *De Christelijke Gereformeerde Kerk in N. A.*; and Lectures.

*Missionary Science.*—This course, taken by classes I-II, comprises three distinct divisions, viz., Doctrine of Missions, History of Missions, and Theory of Missionary Practice. In the absence, quite generally, of

regard for the Doctrine of Missions, and with a view to the preponderance of interest in the historical and practical aspects of missions, the dogma or doctrine of missions is made at least proportionately prominent. Sound missionary practice requires sound missionary doctrine. The latter, based upon God's Word, is the criterion of missionary history and the norm of missionary practice.

## SYSTEMATIC THEOLOGY

PROFESSOR TEN HOOR

*Theological Encyclopedia.*—The concept, object, principles, and contents of Theology as one organic whole. The differentiation and organic unity of the divisions and subdivisions.

*The History of Doctrines.*—Development of the several doctrines in the course of centuries.

*Symbolics.*—The various Confessions of Faith. Historically the origin of the Confessions of the different churches is traced, and dogmatically they are compared, and the agreement and difference between the various Confessions and our Reformed Standards are pointed out. Biesterveld's "Symboliek" is followed in the main.

*Introduction to Dogmatics.*—Exposition of the principles of Theology and Religion in general, and of Dogmatics in particular. Comparison and criticism of the different tendencies in Theology, with the Bible, which is recognized as the only source of Dogmatics, as criterion.

*Dogmatics.*—The aim of this study is to show how the general dogmas have been derived from the Holy Scriptures, how they have been one sidedly distorted to right or to left, what their Scriptural meaning is, how they are related and together form one whole, and finally how our practice should be determined by these truths.

*Ethics.*—While in Dogmatics a study is made of what we should believe, in Ethics the aim is to determine how we should be and conduct ourselves. The distinction is made clear between philosophical and theological Ethics. The contents of the latter are derived from Holy Scripture alone.

## PRACTICAL THEOLOGY

PROFESSOR HEYNS

*Homiletics.*—The principles to be observed in order that preaching may truly be ministration of the Word; the demands of Rhetoric in the

composition and delivery of a sermon; the history of preaching; exercises in analyzing texts and in making and criticising sermon outlines.

*Catechetics.*—History, character, subject-matter, and methods of catechetical instruction.

*Liturgics.*—Historical study of the forms of Christian worship in different periods; public worship and principles according to which it should be conducted.

*Poimenics.*—Study of the pastoral work required by the Holy Scriptures of the minister of the Word, his conduct in house visitation, in visitation of the sick, and in special cases.

*Church Government.*—Study of our Church constitution and its amendments, with suggestions relative to their application in practice.

## ENGLISH

PROFESSOR VANDEN BOSCH

1. Composition and Rhetoric. Descriptive and expository themes. Discussion of rhetorical principles. Required of all Freshmen. Three times a week. First semester.

2. Composition and Rhetoric. Continuation of course 1. The short story. Required of all Freshmen. Three times a week. Second semester.

3. English Literature. The Elizabethan, the Puritan, and the pseudo-Classical periods. Three times a week. First semester.

4. English Literature. The Romantic movement. Three times a week. Second semester.

5. Argumentation and Debating. Three times a week. First semester.

6. Contemporary English Literature. A study is made of fiction, drama, and poetry since 1890. Three times a week. Second semester.

7. American Literature. The colonial, the revolutionary, and the first national periods. Three times a week. First semester.

8. American Literature. From the Civil War up to the present day. Three times a week. Second semester.

## FRENCH

PROFESSOR A. E. BROENE

1. Elementary course. Grammar, pronunciation, composition. Text: Aldrich and Foster, Elementary French. Dictation. Conversation on familiar objects with a view to training the ear to understand spoken French. Four times a week. First semester.

2. Continuation of course 1. Grammar, reading. Text: Monvert, La Belle France or equivalent. Four times a week. Second semester.

3. Intermediate course. Review of grammar with special emphasis on the more important parts. Reading of modern prose. Assigned readings and reports. Three times a week. First semester.

4. Advanced course. Rapid reading of modern prose. Special attention given to idiom. Composition. Assigned readings and reports. Three times a week. Second semester.

## GERMAN

PROFESSOR A. E. BROENE

1. Elementary course. Grammar and prose composition. Reading of modern texts calculated to build up a fair reading vocabulary and to give the student some knowledge of German life and institutions. Textbooks: Vos, Essentials; Allen, An den Ufern des Rheins, or equivalent. Four times a week. First semester.

2. Continuation of course 1. Four times a week. Second semester.

3. Intermediate course. Review of grammar. Reading of nineteenth century prose; outside reading with reports. Composition. As

far as practicable the work in the classroom is carried on in German. Three times a week. First semester.

4. Nineteenth Century prose. Review of grammar continued. Extensive reading. Composition. Text: Boezinger's *Erstes Aufsatzbuch*. Three times a week. Second semester.

5. Modern Drama. Study of the Realistic period of German literature. Reading includes representative plays by Grillparzer, Hebbel, Sudermann. Outside reading. Three times a week. First semester. Not offered during 1920-'21.

6. Continuation of course 5. Three times a week. Second semester.

7. Classic drama. A general survey of the classic period with a study of at least three masterpieces. Three times a week. First semester.

8. Continuation of course 7. Three times a week. Second semester.

## HEBREW

PROFESSOR JANSSEN

1. An elementary course. The work is that covered by Harper's *Method and Manual* and the *Elements of Hebrew*. Three times a week.

## PUBLIC SPEAKING

MR. STOB

1. Writing of orations to develop the clear, direct, and forceful style necessary for public address. Delivery of orations before the class. Discussion of the qualities of a good speaker and the means for becoming one. Text: H. G. Houghton, *Elements of Public Speaking*. Twice a week thruout the year.

2. Writing of orations. Individuality of style and of oral expression is aimed at. Suggestions are made with respect to the holding of interest, the aim of public speaking, and the connection between this work and that of the seminary. Once a week thruout the year.

## MUSIC

1. Drill in the rudiments of vocal music. Open to members of all classes.

2. Chorus work. The study of some cantata. Open only to more advanced students of all classes. No credit is given for these courses.

## HISTORY

PROFESSOR HOEKSTRA

1. Western Europe since 1815. The political and economic reconstruction of Europe after the Napoleonic wars, the revolutionary movements of 1848, the narrative history of France and Italy to 1870. Lectures and collateral reading. Text: Robinson and Beard, *Development of Modern Europe*, volume II. Three times a week. First semester. 1920-'21.

2. Western Europe since 1815. A continuation of course 1. France and Italy since 1870. Germany since 1815 with special emphasis upon German unification, the rise of Socialism, Germany's relation to the world war. Lectures and collateral reading. Text: Robinson and Beard, *Development of Modern Europe*, volume II. Three times a week. Second semester. 1920-'21.

3. Eastern Europe since 1815. The history of the Balkan states from 1815 to the present, and of Russia from 1815 to the establishment of the Bolshevik regime. Lectures and collateral reading. Text: Robinson and Beard, *Development of Modern Europe*, volume II. Three times a week. First semester. 1919-'20.

4. England and the British Empire since 1815. A study of England's domestic history and of British Imperialism, followed by a survey of the European problems taken up at the Peace Conference. Lectures and collateral reading. Text: Robinson and Beard, *Development of Modern Europe*, volume II. Three times a week. Second semester. 1919-'20.

5. English History to 1689. The general political history of England will be studied with the use of such a text as Cheyney's *Short History of England*. Three times a week. First semester. 1920-'21.

6. English History since 1689. A continuation of course 5. Special emphasis will be laid upon the development of English governmental institutions. Three times a week. Second semester. 1920-'21.

Courses 5 and 6 should be taken by those preparing for the study of Law.

## PHILOSOPHY

PROFESSOR J. BROENE

1. (a) Psychology. Introductory course. Lectures and collateral reading. Text: Pillsbury's *Essentials of Psychology*. Twice a week thruout the year.

(b) Logic. Introductory course. Text: Jones's Logic. Once a week thruout the year. 1921-'22.

2. History of Philosophy. Exposition and criticism of the various schools of thought. Texts: Rogers, Student's History of Philosophy; Hibben, the Problems of Philosophy. Three times a week thruout the year. 1920-'21.

## EDUCATION

PROFESSOR J. BROENE

1. History of Education. A general study of the growth of educational theory and practice. Lectures and collateral reading. Text: Graves, A Student's History of Education. Three times a week thruout the year. 1920-'21.

2. Principles of Education. A study of the psychological basis of education, of the curriculum, and of the elemental educational values. Lectures and collateral reading. Text: Bavinck's Paedagogische Beginselen. Three times a week thruout the year. 1921-'22.

These courses in education are given in alternate years.

## MATHEMATICS

PROFESSOR RINCK

1. Algebra. For those who have had only one unit of algebra in the Preparatory School. Three hours credit. First semester.

2. Solid Geometry. For those who have had only one unit of geometry in the Preparatory School. Three hours credit. Second semester.

3. Algebra. Quadratic equations reviewed, graphical representation, mathematical induction, binomial theorem, progression, permutations and combinations, complex numbers, elements of theory of equations, determinants, logarithms. Text: Rietz and Crathorne's College Algebra. First semester. Three times a week.

4. Plane Trigonometry. Text: Murray's Plane and Spherical Trigonometry with Tables. Second semester, three times a week.

5. Plane Analytic Geometry. Text: Ziwet and Hopkins, Analytic Geometry. Four times a week. Second semester.

7. Differential and Integral Calculus. Four times a week. First semester.

8. Continuation of course 7. Integral Calculus and Introduction to Differential Equations. Four times a week. Second semester.

## POLITICAL SCIENCE

PROFESSOR HOEKSTRA

1. Introduction to Political Science. The origin, nature, and essential elements of the state. State forms and forms of government. Sovereignty and the relation of states to one another. Lectures and collateral reading. Text: Leacock, Elements of Political Science. Three times a week. First semester. 1920-'21.

2. Introduction to Political Science. A continuation of course 1. The sphere of the state. Theories of state functions. The constitution of the state. Distribution of the powers of government. Lectures and collateral reading. Text: Leacock. Three times a week. Second semester. 1920-'21.

3. American Constitutional Law. The constitutional framework and the practical operation of the Federal and State constitutions. The relation of government to the business and social interests of the people. Interpretation of the constitution by the various departments of the government. Text: McClain, Constitutional Law in the United States. Three times a week. First semester. 1920-'21.

4. American Constitutional Law. Continuation of course 3. Three times a week. Second semester. 1920-'21.

## SOCIOLOGY

PROFESSOR HOEKSTRA

1. An introduction to the field of Sociology. Text: Blackmar, Elements of Sociology. Three times a week. First semester. 1919-'20.

2. Problems in Sociology. A continuation of course 1. Text: Blackmar. Three times a week. Second semester. 1919-'20.

## BIOLOGY

PROFESSOR VAN HAITSMAN

1. Invertebrate Zoology. A more comprehensive study of the anatomy, physiology, behavior, and classification of invertebrate animals than was possible in the preparatory course. Text: Hegner's College Zoology. Three recitations and four hours laboratory work a week. Laboratory fee \$2.00. First semester.

2. Botany. General morphology and classification of plants. This course offers a general view of the plant kingdom. Text: Coulter's

Text-book of Botany. Three recitations and four hours laboratory work a week. Laboratory fee \$2.00. Second semester. 1919-'20.

3. Vertebrate Zoology. Anatomy, behavior, and classification of vertebrate animals. This course is fundamental for the study of human anatomy and physiology. Three recitations and four hours laboratory work a week. Laboratory fee \$2.00. First semester. 1920-'21.

4. Vertebrate Embryology. The development of birds and mammals is emphasized. Three recitations and four hours laboratory work a week. Laboratory fee \$2.00. Second semester. 1920-'21.

## PHYSICS

1. General Physics. Mechanics, Sound, and Heat. Four times a week. First semester.

2. General Physics. Continuation of course 1. Magnetism, Electricity, and Light. Four times a week. Second semester.

3. Laboratory work in Mechanics, Sound, and Heat. Once a week. First semester.

4. Laboratory work in Magnetism, Electricity, and Light. Once a week. Second semester.

## CHEMISTRY

PROFESSOR NIEUWDORP

1. General Chemistry. Study of the fundamental principles and modern theories, and of some of the most important elements and their compounds. Three recitations. One laboratory period of four hours and one hour discussion of laboratory work a week. First semester. Laboratory fee \$2.50. Breakage fee \$2.50.

2. General Chemistry. Continuation of Course 1. Study of the occurrence, preparation, and properties of the elements and their most important compounds. Three recitations. One laboratory period of four hours and one hour discussion of laboratory work a week. Second semester. Laboratory fee \$2.50. Breakage fee \$2.50.

3. Qualitative Analysis. Prerequisite, Courses 1 and 2. Study of the reactions of the metallic elements. Discussion of the operations and methods used in the identification of unknown substances or mixtures. Special attention will be paid to the principles relating to the ionization of substances in solution and the laws of chemical equilibrium.

Two recitations and from six to eight hours of laboratory work a week. First semester. Laboratory fee \$2.50. Breakage fee \$2.50.

4. Organic Chemistry. Prerequisite, General Chemistry. Study of the preparation and properties of the chief aliphatic compounds. Discussion of questions of constitution and of the facts on which a given constitutional formula is based. Three recitations. Four hours laboratory work a week. Second semester. Laboratory fee \$2.50. Breakage fee \$2.50.

†The figures denote the number of recitations per week.

\*This new course of Study will not be entirely effective in 1920-21. See further, "Description of Courses."

1. The Seminary Preparatory Course is intended for those students who expect to take up theology. Under ordinary circumstances, students selecting this course are expected to take the prescribed studies.

2. Students selecting the Teachers' Course must take the prescribed course. In exceptional cases, this course may be varied with the approval of the Committee on Studies.

For the four hours which drop out during the second semester of the Fourth Year practice work is to be arranged as follows: Four weeks of observation, four weeks of teaching under guidance, and four weeks of teaching without direct supervision.

3. Students who are candidates for graduation in other courses must complete sixteen units, a unit meaning a subject of study pursued through a school year, with five recitation periods a week. Of these sixteen units, ten must be presented by all applicants, viz:

English, 3 units.

Mathematics, 2 units.

Physics, 1 unit.

Latin or a Modern Language, 2 units.

Bible Study, 1 unit.

History, 1 unit. (Either Ancient History, Medieval and Modern History, or American History and Civics.)

The remaining six units may be selected from the following list:

Latin, 1 unit.

German, 2 units.

French, 2 units.

Dutch, 2 units.

History, 2 units.

Chemistry, 1 unit.

Algebra and Geometry, 1 unit.

Trigonometry, ½ unit.

General Science, 1 unit.

Botany, ½ unit.

Zoology, ½ unit.

Physiology, ½ unit.

Agriculture, ½ unit.

a. Civics and American History form together one unit. If Civics, therefore, is selected and is to be counted for credit, American History must be taken to complete the unit. No credit toward graduation will generally be given for a single unit of French, of German, or of Holland.

b. Those who look forward to an engineering course are advised to take three units of mathematics and one and a half or two units of the following: Chemistry, one unit; Plane Trigonometry, one-half unit; French or German, one or two units; Greek or Latin, one or two units.

c. Those who upon graduation expect to take a course in medicine must take French or German and Biology in the third year, and German or French and Chemistry in the fourth year. Moreover, one unit of General History and one unit of American History and Civics are required.

d. Without the consent of the Committee on Studies, no student is allowed to take more than the number of hours specified in the course of study.

e. Those who expect to take Trigonometry should elect mathematics in the third year.

## DESCRIPTION OF COURSES

### BIBLE STUDY

*The figure at the right of the name of the course indicates the year of the curriculum*

PRESIDENT HIEMENGA, PROFESSOR HEYNS, AND  
PROFESSOR BERKHOF

One hour a week is devoted to Bible Study during each of the four years of the course.

During the first year a general survey is made of the Old and New Testament.

The second year is devoted to a detailed study of the Old Testament and the third year to the New Testament.

In the fourth year a beginning is made with study of Biblical Doctrines.

In the third year of the Teachers' Course two hours a week are devoted to Biblical Doctrines and one hour to Biblical Archaeology. In the fourth year, two hours to Biblical Doctrines.

Texts: Maclear's Old Testament History; Maclear's New Testament History; Shooks, Gist of the Bible; Vollmer's Modern Student's Life of Christ; Bosma's Reformed Doctrine.

Lectures and assigned readings.

## GREEK

PROFESSOR SCHOOLLAND

*Greek 4.* First semester, Xenophon's Anabasis; second semester, Homer's Iliad, books I and XXIV. Goodwin's Greek Grammar. Five times a week. Offered in 1919-'20. Not offered in the Preparatory School after this year.

## LATIN

PROFESSOR ROOKS AND MR. STOB

*Latin 1.* The declensions and the common forms of the four conjugations. The elements of syntax. The acquiring of a good working vocabulary. Reading Latin aloud. Daily exercises in the writing of Latin. Text: Collar and Daniell's First Year Latin, Revised by Thornton Jenkins. Five times a week. Mr. Stob.

*Latin 2.* The equivalent of four books of Caesar's Gallic Wars is read. Emphasis is laid on syntax, in particular on that of the verb. Such topics as the significance of the wars, the campaigns, and the character of Caesar are studied on the basis of the text. Sight reading. Latin composition. Texts: Kelsey's Caesar's Commentaries. Five times a week.

*Latin 3.* For the year 1920-'21, same as Latin 2. Prof. Rooks.

*Latin 4.* The four orations against Catiline; De Imperio Pompeii; selected letters. Drill in the forms and syntax of the verb continued. Special attention given to the syntax of nouns, pronouns, and adjectives. Prose composition. Five times a week. Texts: Kelsey's Cicero; Bennett's Latin Grammar. Prof. Rooks.

## DUTCH

PROFESSOR VAN ANDEL

*Dutch 2.* An intermediate course in which the more difficult phenomena of the Holland grammar are taught. Text: Van Anandel, Holland Grammar. Lessons XXI-XXX. Twice a week. Part of the time is devoted to the reading of Dutch classics.

*Dutch 3 (a)* An advanced course in which the syntax and the etymology of the Dutch tongue are discussed. Text: Den Hertog, Voortgezet Taalonderwijs. Twice a week.

*Dutch 3 (b)* A course in reading and composition. Literature: Wolff en Deken, Sara Burgerhart; Hildebrand, Camera Obscura; De Genestet, Gedichten; or equivalents. Composition: bi-weekly exercises based on reading. Required outside reading of 300 pages a month. Twice a week.

*Dutch 4.* History of Dutch Literature from 1700-1880, covering the pre-Romantic, Romantic and Realistic Periods. Text: Appelboom en Van Vliet, Nederlandsche Letterkunde. Special study is made of Bilderdyk and Da Costa as poets, philosophers, and originators of the revival of Calvinism in Holland. Text: Bavinck, Bilderdyk als Denker en Dichter. Assigned reading and monthly essays on topics connected with the courses. Twice a week.

*Special Dutch.* A special course is offered to make up the grammar part of the first three years. Three times a week. Credit six hours.

*Remark.* No Dutch is given in the first year. In accordance with the new course Dutch will be taught five hours a week in the third and fourth years, starting respectively in 1921 and 1922. In 1920-'21 no Dutch will be offered in the second year.

## ENGLISH

PROFESSOR VANDEN BOSCH

*English 1.* Longman's English Grammar. Scott's Ivanhoe; Scott's Lady of the Lake. Five times a week.

*English 2.* Composition. Text: Thomas, Howe, and O'Hair. Composition and Rhetoric. Literature: Scott's Ivanhoe and Lady of the Lake, George Eliot's Silas Marner, Lowell's Vision of Sir Launfal, Irving's Sketch Book, or equivalents. Four times a week.

*English 3.* Rhetoric. Text: Greever and Jones, The Century Handbook of Writing. Literature: Carlyle's Essay on Burns, Ruskin's Sesame and Lilies, Bunyan's Pilgrim's Progress, and Shakespeare's Julius Caesar, or equivalents. Painter's Elementary Guide to Literary Criticism. Three times a week.

*English 4.* History of English Literature. Shakespeare's Macbeth and As You Like It, Milton's Paradise Lost, and other masterpieces. Four times a week.

*Teachers' Course 3 and 4.* A review of English grammar. During 1920-'21 a study will be made of methods of teaching spelling, language, and reading in the grades. Twice a week.

## FRENCH

PROFESSOR A. E. BROENE

*French 3.* An elementary course. Text-book: Aldrich and Foster. Reading of simple prose. Composition. Five times a week. Also open to students of the first class taking the Modern Classical course.

*French 4.* Continuation and review of grammar. Reading of nineteenth century prose. Outside reading of at least 200 pages. Four times a week. Also open to students of the second class taking the Modern Classical course.

## GERMAN

PROFESSOR A. E. BROENE

*German 3.* Elementary course. Text: Vos, Essentials of German. Reading of about 150 pages. Five times a week. This course is also open to students of the first class taking the Modern Classical course.

*German 4.* Intermediate course including reading, composition, and review of grammar. The reading includes modern prose fiction and drama. Outside reading with reports. Five times a week. Also open to students of the second class taking the Modern Classical course.

## PUBLIC SPEAKING

MR. STOB

*Public Speaking 3.* An introductory course. Text book and quizzes. This course aims primarily at the application of the principles of public speaking. Choice passages from Shakespeare, great orators, and the Bible are memorized and spoken, the aim being to give a correct interpretation of the passage and to deliver the same with ease, earnestness, and force. Text: Fulton and Trueblood, Essentials of Public Speaking. Once a week.

## MUSIC

*Beginner's Course.* Drill in the rudiments of vocal music. Open to members of all classes. One hour a week.

*Advanced Course.* Chorus work. Study of some cantata. Open only to more advanced students of all classes. One hour a week. No credit is given for these courses. Only those who take the teachers' course are required to attend these classes.

## HISTORY

PROFESSOR HOEKSTRA

*General History 2.* Ancient History, with special reference to Greek and Roman History, but preceded by a short introductory study of the more ancient nations, and closing with the establishment of the Holy Roman Empire. Text: West's Ancient World. Five times a week.

*General History 3.* A survey of Mediaeval and Modern European History from 800 A. D. to the present. Text: West's Modern World. Five times a week.

*American History 4.* The study of American History has for its object to familiarize the student with the important facts and events of the history of our country, and to equip him with a clear outline of American History as a foundation for more advanced or more intelligent reading. Text: Fite, History of the United States. Three times a week.

*Civics 4.* A study is made of municipal, state, and national government. Text: James and Sanford: Our Government. Twice a week. Professor J. Broene.

## PEDAGOGY

PROFESSOR J. BROENE

*Pedagogy 4.* Principles and methods of teaching. An especial effort is made to train teachers for work in Christian Schools. Texts: Adams, A Primer in Teaching; Bagley, Classroom Management. Three times a week.

## MATHEMATICS

PROFESSOR RINCK

*Mathematics 1.* The whole year is devoted to Algebra. The subject is at all stages vitally connected with the arithmetic with which the student is already familiar. The inductive method of presentation is used throughout. Attention is given to the practical side of the subject. Text: Slaught and Lennes, First Principles of Algebra, Elementary Course. Five times a week. Three sections.

*Mathematics 2.* Plane Geometry. The logic of the subject is emphasized. Accuracy in definitions and other statements is constantly sought. Through the solution of a large number of exercises an attempt is made to develop the originality of the student. Applications of the subject are noted. Text: Ford and Ammerman, Plane Geometry. Five times a week. Two sections.

*Mathematics 3 (a).* Algebra. A more intensive and rigorous study of the subject than could be undertaken in the first year. Five times a week during the first semester. Text: Hawkes-Luby-Touton, Second Course in Algebra.

*Mathematics 3 (b).* Solid Geometry. Continuation of Mathematics 2. Five times a week during the second semester. Text: Ford and Ammerman, Solid Geometry.

*Arithmetic 4.* This course is adapted to those who expect to teach. Fundamental notions are thoroughly reviewed; the logic of the subject is emphasized; methods of teaching are indicated; some attention is paid to the historical development of the subject. Three times a week. Texts: Lyman, Advanced Arithmetic; Stone, The Teaching of Arithmetic.

## ORGANIC SCIENCE

PROFESSOR VAN HAITSMAN

*Economic Geography 1c.* A study is made of the way in which different peoples in different regions get a living. Text: Dryer's Elementary Economic Geography.

*General Science 1.* An introduction to the study of nature. Text: Caldwell and Eikenberry's General Science. Four recitations and one laboratory period a week. Laboratory fee \$2.00.

*Botany 3.* This course attempts to give an insight into the nature of plants. The relation of plants to man is emphasized. Regular field trips are made in the fall as long as the weather permits. Texts: Bergen and Caldwell's Introduction to Botany, North Central States Edition; Van Haisma's Laboratory Guides in Practical Biology. Five recitations and a two-hour laboratory period per week during one semester. Laboratory fee \$1.00.

*Zoology 3.* A study of the form and structure, physiology, and behavior of typical animals. More directly beneficial and harmful animals receive special attention. A few field trips are made during the

year. Texts: Colton's Zoology, Descriptive, and Van Haitma's Laboratory Guides in Practical Biology. Five recitations and a two-hour laboratory period per week during one semester. Laboratory fee \$1.00.

*Physiology 3.* The subject deals with the anatomy, physiology, and hygiene of the human body. Thruout the course the student's attention is called to the Christian principles underlying the study of the subject. The course is designed especially for prospective teachers. Text: Eddy's Text-book in General Physiology and Anatomy. Twice a week. Prof. J. Broene.

*Agriculture 3 and 4.* This course in applied science is given primarily for prospective teachers. Text: Warren's Elements of Agriculture. Four recitations and one laboratory period a week during the year. Laboratory fee \$2.00. 1920-'21. Alternates with geography.

*Geography 3 and 4.* This course for prospective teachers offers an explanation of the fundamentals of geography by means of the text, demonstrations, and laboratory exercises. One hour a week during the second semester is devoted to a discussion of the teaching of geography. Texts: Salisbury, Barrows, and Tower's Modern Geography and Sutherland's The Teaching of Geography. Four recitations and one laboratory period a week during the first semester and two recitations and one laboratory period a week during the second. Laboratory fee \$2.00. 1919-'20. Alternates with agriculture.

## PHYSICAL SCIENCE

PROFESSOR NIEUWDORP

*Physics 4.* This course deals with the fundamental principles of Physics. Texts: Carhart and Chute, Physics with Applications; Milliken-Gale-Bishop, Laboratory Physics. Four recitations and one laboratory period a week. Laboratory fee \$2.00.

*Chemistry 4.* In this course a study is made of the most important elements and their principal compounds. Some of the fundamental laws and theories of chemistry are discussed. Texts: First Principles of Chemistry by Brownlee and Laboratory Exercises by the same author. Four recitations and three hours of laboratory work.

## PHYSICAL TRAINING

The University of Michigan requires gymnasium work twice a week of first year students and recommends that the students of the other years

take such work. Students of our school who take work in the College Department and who look forward towards taking advanced work at the University of Michigan can satisfy the requirements of physical training of Freshmen students at the U. of M. by taking the elementary course given at our city Y. M. C. A.

The following courses in Physical Training are offered at our Y. M. C. A., which our students may take:

First year work. (Elementary). Light calisthenics, marching, heavy calisthenics, group games and contests, apparatus work. Other exercises for the improvement, posture, breathing, and muscular coordination. Two hours credit.

Second year work. (Advanced). Advanced calisthenics, dumbbells, wands, marching, heavy apparatus, group games, and contests of a developed mental type. Two hours credit.

## REGULATIONS

### ADMISSION AND ADVANCED STANDING

Applicants for admission to the first class of the Preparatory School are accepted on the presentation of a certificate from a good school, testifying that they have finished the work of the eighth grade, or on passing the examination in the branches taught in the Grammar School. In exceptional cases, promising young men of mature years, who desire to study for the ministry, but have not had the required preliminary training, may be admitted to the first class of the Preparatory School on probation. All applicants must, however, present a satisfactory written testimonial of good moral conduct. Those who intend to study for the ministry must in addition present a recommendation from their consistory.

Candidates for advanced standing will be placed in the highest class for which they seem fit. No credit, however, will be given for subjects taken elsewhere, until a student has shown, during the first semester in attendance, ability to keep up with his work.

Students who come from other schools and present branches of study different from those taught at our school may receive credit for such, provided these are subjects of equal educational value.

*All testimonials, certificates, or records of work done elsewhere should be presented on the day when the candidate applies for admission. Students expecting advanced credit for work done at other institutions should bring full credentials.*

After a student has enrolled for a study, he may not drop it without permission from the Dean; neither may he change his course of study without such permission.

Students who are not candidates for graduation may, in as far as the schedule of recitations allows, take such studies as their preparation qualifies them to pursue with profit. Bible study, however, must be taken by every student.

The regular time for admission is at the beginning of the school year in September, and at the beginning of the second semester in January. During the school year, however, the Faculty has the right to accept students that meet the requirements.

### DISMISSION

Students are amenable to the regulations of the school from the time of their arrival. As soon as a student's conduct becomes detrimental to his own or the school's best interest, the Faculty will suspend him after due warning, and, in case no improvement results, the withdrawal of such a student may be required. Any student in good standing may, upon his request, receive honorable dismission.

### EXAMINATIONS

The examinations held in this institution at the close of the first and second semesters are written. The graduates of the college, however, are examined orally, in history, psychology, logic, history of philosophy, Dutch, English and Reformed doctrine. With these exceptions, all examinations in both college and preparatory school are conducted by the Faculty exclusively.

### PROMOTIONS

At the end of the year the Board of Trustees, upon recommendation of the Faculty, promotes students to more advanced work. The promotion is based in part upon the class work, in part upon tests held during the year, which may be either oral or written, or both, as may be thought best by the professor in charge of the branch, and in part upon the final examination. Should the average standing in any subject at the end of the school year be below 75 per cent, the student will be promoted to a higher class only on condition that the deficiency be made up.

Graduates of the college are promoted by the Board of Trustees upon recommendation of the Faculty and the Committee on Examinations representing the trustees, but the promotion of the graduates from the preparatory school is determined exclusively by the Faculty.

A student who, at the end of the school year, has conditions in branches representing more than ten hours of instruction a week is "not passed", that is, must upon return repeat the work of the class the following year. Such a student may be excused by the Dean from a

branch in which a high standing was received, provided the teacher of the branch gives his approval.

Conditions received in January, as well as in June, may be removed only at the supplementary examination held for that purpose on the first Friday and Saturday of the school year. If a student desires to be examined for the removal of a condition, he must, at least three days prior to the time set for the examination, notify the instructor that he will be in attendance. If a student fails to remove his condition at the examination immediately following the time, when the condition was received, the subject in which the condition was received will have to be repeated in class, should credit in it be desired. The same rule will hold for incompletes unless removed before the opening of the second week of the school year immediately following the time when the incomplete was received.

A student who, at the supplementary examinations, fails to reduce his conditions to at least six hours of instruction a week must repeat the work of the preceding year.

A student who, at the supplementary examination, succeeds in reducing his conditions to at least six hours will be allowed to pursue the work of the next higher class in the studies which are not in continuation of those affected by the condition.

As for the continuation of a study in which a condition was received and not removed, the teacher in charge will determine whether the student is able to take up the work of the next higher class.

What course is to be pursued in the case of a student who is not prepared for more advanced work is to be determined jointly by the Dean and the instructor of the subject.

Report cards are sent out to the parents at the end of each semester. If the work of any student is not satisfactory, parents are notified early in the semester.

### DIPLOMAS

The School issues diplomas as follows:

To those who have completed the work required for graduation in the Preparatory School. These diplomas, that of the Teacher's Course excepted, admit, without examination, to the University of Michigan, as well as to our own College Department.

To those who have finished the required number of hours of work in the College Department. See also under the heading, "Courses of Study—The College."

To those who have finished the three years' course in Theology.

To those who have finished one year in Theology and the seven year Seminary Preparatory course the degree of Bachelor of Arts will be granted.

When no full course is completed, a statement is given of the studies in which the students passed examination.

No diploma will be granted for less than one year's resident work, which ordinarily must be the year immediately preceding the granting of the diploma.

### TERMS AND VACATIONS

The school year of thirty-six weeks is divided into two semesters of eighteen weeks each.

Two vacations are given during the year: A vacation of two weeks at the Christmas holidays, and a spring vacation of one week. Students are required to remain on duty until the last school exercise preceding a vacation is completed, and to be present at the hour of opening, after a vacation.

### RELIGIOUS CULTURE

All students are obliged to attend the devotional exercises held in the auditorium at 8 A. M. Religious instruction, either doctrinal or historical, is compulsory for all classes.

On the Sabbath every student is supposed to worship regularly with some church of his own selection.

Every student above the second year is visited by some professor at least once in a school year. The object of this visit is not only to speak with the student about methods of study, difficulties encountered in the work, habits of living, but especially to be a help to him in his spiritual life. The college believes that the religious as well as the intellectual side of a student's life should receive due attention.

## GENERAL INFORMATION

### LOCATION

Grand Rapids, the metropolis of Western Michigan, is an ideal college town. Being a city of about 150,000 inhabitants, it is not too small to be devoid of those general cultural influences that should surround an educational institution nor so large as to be a disadvantage to the ideal interests of college life.

Among the many cultural advantages which the city offers and from which our students may profit, we may mention first of all the Public Library. It is housed in a building that displays true architectural art, and has a collection of 170,000 books, among which are found many standard works of reference; besides, its reading room is supplied with nearly all the leading periodicals of this country and with many from foreign countries. Further, there is the Kent Scientific Museum, which is open daily and can be an efficient help to those interested in scientific subjects. In addition to this, the students have the opportunity of hearing lectures and addresses by noted men who are invited to the city, and of attending concerts, both vocal and instrumental, by some of the leading artists of the musical world.

### HISTORY AND CHARACTER OF THE COLLEGE

The origin of the Theological School and Calvin College dates as far back as the year 1861, when the classis of the Holland Reformed Church officially recognized the need of training men for the gospel ministry. Three years later Rev. D. J. Vander Werp was appointed as instructor, and in this capacity he labored in connection with his pastoral work till his death in 1876. Not until the appointment in this same year of Rev. G. E. Boer as professor, however, did the school assume a definite organization. March 15, 1876 was, therefore, its natal day. Little by little it grew until in 1900 it enrolled fifty students taught by a staff of five professors. By this time the need of a college where young people not looking forward to the gospel ministry could receive a Christian liberal education was beginning to be generally felt. Accordingly, Synod took active measures toward the expansion of the

literary department, then consisting of a four year course, into a college. From time to time, as means allowed, both the curriculum and the teaching staff were enlarged so that at present the institution comprises three departments: the preparatory school, which furnishes an education equivalent to that of a high school or academy; the college, which offers the usual courses leading to the Bachelor's degree; and the seminary, which prescribes three years of theological study.

The institution is supported chiefly by the members of the Christian Reformed Church, and is controlled by a Board of Trustees composed of two members from each classis. According to the constitution all instruction given must be in harmony with Reformed principles. The various branches of study, therefore, are considered from the standpoint of faith and in the light of Calvinism as a life and world view. The aim of the college is to give young people an education that is Christian, not merely in the sense that devotional exercises are appended to the ordinary work of a college, but in the larger and deeper sense that all the class work, all the student's intellectual, emotional and imaginative activities shall be permeated with the spirit and teaching of Christianity.

### CAMPUS AND BUILDING

The new campus, comprising about twelve acres of ground, lies in one of the most beautiful residential sections of the city. The site is ideal. To the east are two beautiful boulevards and the varied scenery surrounding Reed's Lake; at its southeastern corner is a large golf field; and across from its southwestern corner lies Franklin Park, a twenty acre plot of ground offering splendid opportunity for rest and recreation. All around it are residences of the better class. The grounds have been decorated by a landscape artist and now, nearly completed, resemble a park.

The main building, erected at a cost of \$150,000 is an imposing edifice constructed of re-enforced concrete and brick veneer. Thoroughly modern and up-to-date in structure, it is provided with the very best equipment for lighting, heating, and ventilation. No expense has been spared to supply the building with the latest educational facilities. In the high and well lighted basement are two waiting rooms, two class rooms, the reading room and library, and the physical laboratory; connected with the basement but in a separate building, is the chemical laboratory; on the main floor are found the administrative offices, committee room, faculty room, biological laboratory, four lecture rooms,

and the auditorium, with a seating capacity of seven hundred twenty-five people; on the second floor are ten lecture rooms and the balcony of the auditorium.

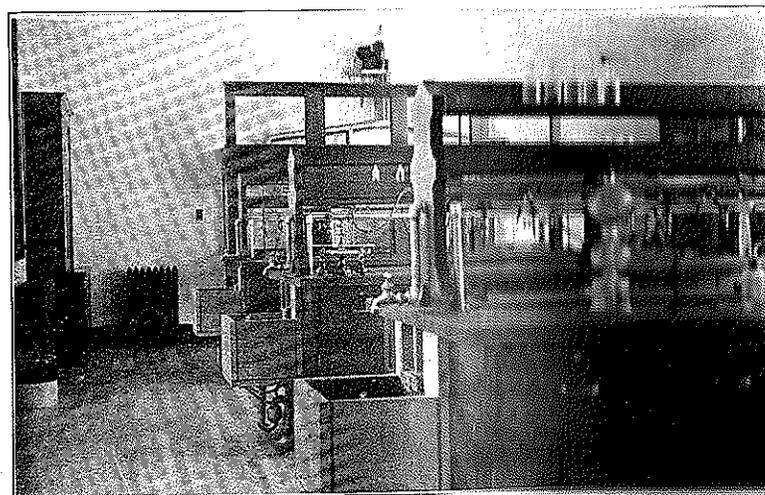

### LIBRARY

The library is daily open to the students. The books are catalogued according to the Dewey system. Card catalogues, which greatly increase the usefulness of the library, have been prepared. Owing to the liberality of Mrs. E. V. De Jong, the library is in possession of a handsome endowment fund, the interest of which is annually available for the purchase of books. There is still, however, great need of enlarging it, and gifts in the form of extra books or money are highly welcome.

### LABORATORIES

The *physical laboratory*, which is modern in every respect, contains ten laboratory tables, each accommodating four students. These tables are equipped with double gas cocks, two nickel-plated electric plugs, adjustable metal uprights and cross bars, and four large drawers. In addition to these there are two balance tables, each long enough to support four scales, and two work tables fitted with double gas cocks and pantry cocks for hot and cold water and providing working space for several students at one time. Dust-proof apparatus cases fitted with glass doors, adjustable shelves, and capacious drawers furnish ample room for the storing and displaying of physical apparatus. A special photometric room containing an up-to-date photometry room desk on which students perform experiments with optical benches and photometers and a separate stock room for storing apparatus and chemicals complete the physical laboratory. The physical lecture room is provided with a stereopticon outfit.

The *chemical laboratory* is a separate building but connected with the main structure. Three double chemistry desks fitted with double re-agent shelves, six double long spout gas cocks, and an equal number of compression water cocks accommodate forty-eight students working in sections of twenty-four. Four fume hoods of practical construction and design and furnished with stone sink and gas cock have been installed. An electric exhaust fan removes all obnoxious odors from the hood. Re-agent cases fitted with adjustable shelves are conveniently placed so that the student loses little time in walking back and forth to them. The two balance tables are attached to the outside wall in order

Chemical Laboratory

Biological Laboratory

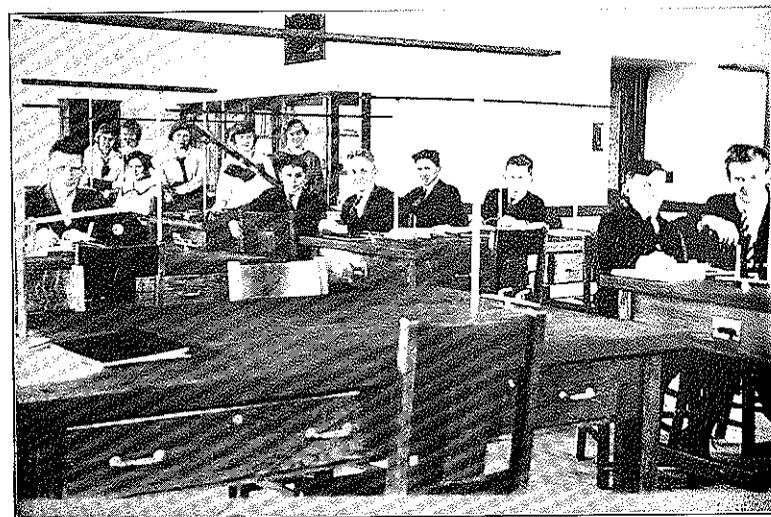

to reduce vibration to a minimum. Their lengths allow the placing of six balances, leaving sufficient working area around each.

The *biological laboratory* consists of the main laboratory, a plant conservatory, a stock room, and a private laboratory or dissecting room. It is well lighted naturally by twelve windows on the south and east sides and artificially by electric lamps distributed throughout the rooms. The main laboratory contains ten student tables each furnished with an acid proof top, eight drawers, and four microscope cupboards fitted with individual lock and key; an instructor's demonstration table provided with gas, electricity, water, and a stone sink; three cases for demonstration material and apparatus; a student's chemistry work table with a reagent shelf, overhead gas and water cocks, and a lead-lined waste-water trough, and stone sink; a student's preparation supply table and cabinet; a copper gauze live-cage with twelve compartments for living terrestrial animals; three large Alberene Stone and glass aquaria for living aquatic animals; and a histology table and cabinet furnished with electricity, gas, water, and a stone sink for the staining and mounting of microscopic objects. The plant conservatory is supplied with water and has a cement floor with drainage opening for waste water. In it there is a starting-table which has more than one hundred square feet of lead-lined, self-drained, germinating beds, and a soil bin of two compartments lined with galvanized iron. The stock room contains four cases in which are stored apparatus, preserved plants and animal material, chemical reagents in bulk, charts, models, etc. The teacher's private laboratory or dissecting room has also a complete equipment.

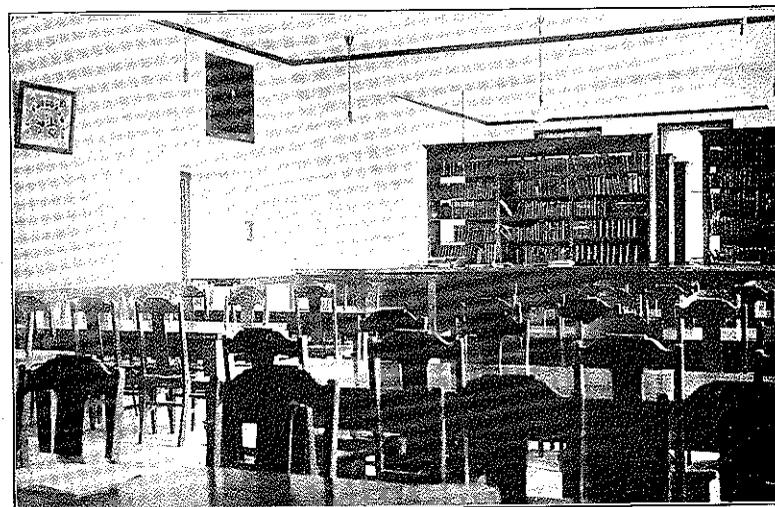

### STUDENT ORGANIZATIONS

The young men of both College and Seminary maintain a literary society called "Corps", which, because of its large membership, has been split into four divisions. The young women have two societies; the Literary Society for the girls of the Preparatory School, and the Sorosis for the girls of the College.

For the purpose of carrying on special study in subjects in which groups of students are interested, several clubs have been organized. Those existing at present are the Calvinistic Club, the Philosophical Club, the Historical Club, the Open Forum Club, the Oratorical Club, the Dramatic Club, and the French Club. In addition to these there are several class clubs, the aim of which is to foster esprit de corps and to promote the best interests of the respective classes.

Physical Laboratory

The Library

The Glee Club is composed of sixteen male voices, and is trained by a competent musical director. By its acceptable singing this organization has become a favorite with the public. A Girl's Glee Club and a Student Band have been organized recently.

The Student Volunteer Band is maintained by those students who are specially interested in the cause of missions. Special study is made of missionary history and practice. The Girl's Mission Society and the City Mission Band also furnish opportunity for the study and practice of mission work.

An association composed of all student subscribers publishes "Calvin College Chimes", a monthly that serves as an organ for the literary expression of the life and the ideals of the student body. During the twelve years of its existence this periodical has gained for itself an honorable record.

"Aurora", a general society of the student body, has gained much favor during the past year. It has met with whole-hearted support in its attempt to foster and guide social life among the students.

### LECTURE COURSE

For a number of years past a lecture course has been successfully maintained by the students' "Corps". This year the course is given under the combined auspices of "Corps" and the Young Men's League of our city churches. Of late years such scholars as Dr. F. W. Loetscher of Princeton, Dr. R. E. Webb of Louisville, and Dr. James I. Good of Philadelphia have appeared on the program. In addition to these there is abundant opportunity for students to avail themselves of lectures and addresses by men of note who are invited to address different organizations of this city.

### ALUMNI ASSOCIATION

The Alumni Association, composed of the graduates of both Seminary and College, aims to promote the interests of both Alma Mater and alumni. The officers for the present year are as follows: President, Dr. H. Beets; vice president, Dr. H. H. Meeter; secretary-treasurer, Rev. Karst Bergsma; vice secretary-treasurer, Rev. G. Hoeksema; council-members, Prof. L. Berkhof, Prof. S. Volbeda, Rev. E. J. Tuuk, Prof. J. P. Van Haitsma, Mr. W. B. Erdmans, and Mr. C. Jaarsma.

### EXPENSES

The tuition fee is fifteen dollars per semester; for two from the same family, ten dollars each; no further reduction is made in case more than two from the same family attend. Further, those living west of the Mississippi and east of Ohio, will be required to pay only one-half of this amount; while those coming from Montana, Wyoming, Colorado, New Mexico, and points west of these states will be permitted to attend free of charge. Half of the tuition fee must be paid to the treasurer in the month of September, the other half during the month of February.

In some laboratory courses an extra fee will be charged to cover cost of material, wear and tear of instruments, etc. The laboratory fees must be paid before the corresponding courses are begun.

The examination fee in the Preparatory School is five dollars. The same fee is charged at the completion of any College Course. These fees must be paid before admission to the final examinations.

Board and room, fuel and light, in good families, is furnished for seven dollars a week and upward. In the dormitory connected with the School, board and rooms may be had at an even lower figure.

Expenses, including board, room rent, fuel, light, washing and text books, are from four hundred dollars up.

### MAINTENANCE AND ENDOWMENTS

For these the School is indebted largely to the kind and generous support of the members of the Christian Reformed Church. From year to year, with the growing of the church, the contributions have become larger and have met the demands of the School, while it has in turn supplied the church with pastors who have shown themselves pious and active workers for the cause of Christ.

The interest accruing from an Endowment Fund of several thousand dollars also contributes to the support of the school.

The College is greatly in need of a larger endowment, a gymnasium, and a new dormitory, and bequests are, therefore, very welcome. Should there be any among the friends of this school whom God has richly blessed with means, may they remember that no money is so well invested as that which is invested in an institution that gives young people a Christian education, in souls and lives rather than in material things. The Church, the state, and society depend upon Christian colleges and seminaries for leaders and workers; hence, money expended for the

support of such institutions is money spent for the advancement of the Kingdom of God upon earth.

### LEGAL FORM OF BEQUEST

I hereby give, devise, and bequeath unto Theological School and Calvin College, a corporation organized and existing under the laws of the State of Michigan, the sum of ..... Dollars, to be paid out of any real or personal estate owned by me at my decease.

### INFORMATION

The President will be glad to furnish all possible information with reference to the Preparatory School and College. More particularly those desiring private boarding places should apply to Prof. Van Haitsma. Correspondence is cordially invited.
