GENERAL REMARKS

The Seminary—The Seminary is maintained and supervised by the Christian Reformed Church, its aim being both to make a scientific study of theology, and to prepare young men for the ministry. All instruction given by the theological professors must be in harmony with the standards of the Church,—the Reformed Confessional writings.

Opening—The school year of 1916-1917 begins the first week in September. On Wednesday, September 6, at 9 A. M., all new students must present themselves for matriculation.

Admission.—Every person who wishes to matriculate as a student of the Seminary must present the following. First, a written testimonial from his consistory showing that he is a church member in full communion and in good standing; secondly, a diploma showing that he is a graduate of the College connected with the Seminary, or that he has completed an equivalent course of study elsewhere. If he does not have such diploma, he may enter by passing an examination in the necessary studies.

Tuition.—No matriculation fees are charged. The tuition fee is twenty-six dollars a year, to be paid in two installments. For those living west of the Mississippi or east of Ohio, tuition is only thirteen dollars per year. Students from Montana, Wyoming, Colorado, New Mexico, and from points west of these states, have free tuition.

Examinations.—Written and oral examinations are held at the close of every school year, the latter in the presence of the Board of Trustees.

Graduation.—Upon completing the prescribed course of study of three years, graduates are awarded a diploma. The graduation fee is ten dollars and is to be paid before the final examinations are taken.

"Krans."—This is a gathering held every Friday afternoon, at which professors and all students studying for the ministry, except those of the first two years in the Preparatory School, are required to be present. The exercises consist of the delivery of sermons, orations, and essays. By means of these exercises, and the criticism offered, thorough preparation for the ministry is sought.

No college student or theologian of the first year is permitted to preach. This privilege is granted only to students of the second and third classes in theology.

"Corps."—The students of the Seminary, together with the senior class of the Seminary Preparatory course of the College, maintain an organization called "Corps," its aim being to promote propriety of conduct and manners, to cultivate Christian character, and to foster scientific and literary effort.

Information.—For further information apply to the rector, Prof. F. M. Ten Hoor, 918 Union Ave., Grand Rapids, Mich.

COURSES OF STUDY

EXEGETICAL THEOLOGY

Old Testament

PROFESSOR JANSSEN

Hebrew.—The study of the Hebrew language is begun in the last year of the College course and continued through the second year in the Seminary. The first year's work in the subject is that covered by Harper's Method and Manual and Elements of Hebrew. In the Seminary portions of the historical or prophetic books are translated, and a study is made of the vocabulary and of the principles of syntax as they are illustrated in the text.

Isagogics.—Introduction to the canonical Scriptures of the Old Testament. A one hour course, being a study of the contents, of the questions of authorship, composition, etc., of the several Old Testament books, together with a sketch of the history of Biblical criticism.

Sacred History.—The course presupposes familiarity with the main facts of the Old Testament record, and deals largely with the more important problems of the subject.

Exegesis.—Interpretation of a portion of the prophetical writings or of some of the psalms. Throughout the course emphasis is laid on the application of strictly scientific methods in exegetical study.

New Testament

PROFESSOR BERKHOF

Isagogics.—Introduction to the canonical Scriptures of the New Testament. The several books of the New Testament are studied as to their contents, authorship, composition, history, inspiration, and significance in the canon.

Hermeneutics.—The aim of this course is to give a general survey of the history of interpretation, and to discuss the principles, methods, and rules that are to be applied in the interpretation of the Bible.

Exegesis.—Introduction to, and interpretation of, some part of the New Testament. This course aims at developing the proper exegetical praxis.

Sacred History.—A general survey is made of the historical facts that are recorded in the New Testament, and their import in the history of revelation is carefully noted. The work is based on the sources.

Biblical Antiquities.—An elementary course in the geography of the various Bible lands and in the social, civil, and religious relations and customs of the different peoples that are prominent in Scripture, especially of Israel.

HISTORICAL THEOLOGY

PROFESSOR VOLBEDA

Church History.—This year the Reformation period of Church History is studied. Next year the study of American Church History will be taken up.

Church Polity.—The polity of the Reformed Churches is studied in its essential features, Biblical basis and historical development. Comparison and criticism of divergent systems of church polity.

The Science of Missions.—This year attention is directed to the Prolegomena of the Science of Missions, and a beginning is made with the study of the discipline itself. Next year the subject will be continued.

SYSTEMATIC THEOLOGY

PROFESSOR TEN HOOR

Theological Encyclopedia.—The concept, object, principles, and contents of Theology as one organic whole. The differentiation and organic unity of the divisions and subdivisions.

The History of Doctrines.—Development of the several doctrines in the course of centuries.

Symbolics.—The various Confessions of Faith. Historically the origin of the Confessions of the different churches is traced, and dogmatically they are compared, and the agreement and difference between the various Confessions and our Reformed Standards are pointed out. Biesterveld's "Symboliek" is followed in the main.

Introduction to Dogmatics.—Exposition of the principles of Theology and Religion in general, and of dogmatics in particular. Comparison and criticism of the different tendencies in Theology, with the Bible, which is recognized as the only source of Dogmatics, as criterion.

Dogmatics.—The aim of this study is to show how the several dogmas have been derived from the Holy Scriptures, how they have been one-sidedly distorted to right or to left, what their Scriptural meaning is, how they are related and together form one whole, and finally how our practice should be determined by these truths.

Ethics.—While in Dogmatics a study is made of what we should believe, in Ethics the aim is to determine how we should be and conduct ourselves. The distinction is made clear between philosophical and theological Ethics. The contents of the latter are derived from Holy Scripture alone.

PRACTICAL THEOLOGY

PROFESSOR HEYNS

Homiletics.—The principles to be observed in order that preaching may truly be ministration of the Word; the demands of Rhetoric in the composition and delivery of a sermon; the history of preaching; exercises in analyzing texts and in making and criticizing sermon outlines.

Catechetics.—History, character, subject-matter, and methods of catechetical instruction.

Liturgics.—Historical study of the forms of Christian worship in

different periods; public worship and principles according to which it should be conducted.

Poimenics.—Study of the pastoral work required by the Holy Scriptures of the minister of the Word, his conduct in house to house visitation, in visitation of the sick, and in special cases.

Church Government.—Study of our Church constitution and its amendments, with suggestions relative to their application in practice.

With the approval of the Committee on Studies, they may take Physiology instead of Algebra in the First Class, and Geography instead of Geometry in the Second Class.

2. Students selecting the Teachers' Course must take the prescribed course. In exceptional cases, this course may be varied with the approval of the Committee on Studies.

3. Students who are candidates for graduation in other courses must complete sixteen units, a unit meaning a subject or study pursued through a school year, with five recitation periods per week. Of these sixteen units, ten must be presented by all applicants, viz.:

English, 3 units.

Mathematics, 2 units.

Physics, 1 unit.

Latin, 2 units.

GENERAL INFORMATION

LOCATION

The school is located in one of the best residence districts of the city of Grand Rapids, at the corner of Franklin St. and Madison Ave. It is about a mile and a half distant from the business and manufacturing centers, and is in one of the highest and healthiest parts of the town.

Grand Rapids, a city of about 125,000 inhabitants, is the county seat of Kent County and the metropolis of Western Michigan. It is beautifully situated on both banks of the Grand River, at the head of navigation. Its furniture industries have made it famous throughout our country. Many railroads center here, so that it is easily accessible from all points. Interurban lines connect it with neighboring towns and villages, and enable students living along these lines to reduce expenses by going back and forth from day to day between their home and the school.

Although so largely dependent upon its manufacturing interests, the city of Grand Rapids is nevertheless essentially a city of homes, and can justly be called beautiful. The wide, well graded, and pleasantly shaded streets are adorned with many elegant private residences, hand-some churches, and public buildings.

A large city offers many advantages, and they are all at the command of the students. The public library, a building displaying true architectural art, has a large collection of books, among which are found many standard works, and a reading room, supplied with valuable works of reference and leading periodicals. The management is efficient, and the attendants ever show the kindest helpfulness. The students also have the opportunity of hearing lectures and speakers of high reputation who visit the city.

Nine Holland and seven English speaking churches of the Christian Reformed denomination are found in the city, and these are equally cordial and helpful to the students.

THE COLLEGE

It was in the year 1900 that Synod first took active measures toward the expansion of the literary department of the Theological School into a college. From time to time, as means allowed, various collegiate courses were added to the curriculum so that at present three years of college work are offered. Accordingly, courses of study are presented covering a period of seven years, the first four of which constitute the Preparatory School, and furnish an education equivalent, in a general way, to that of a high school or academy, while the last three years are equivalent to the corresponding classes of a complete college or university. It is hoped that by next year a four year course leading to the degree of Bachelor of Arts can be offered.

Character of the College.—The institution is supported mostly by the members of the Christian Reformed Church, and is controlled by the Board of Trustees of the Theological School of this church. According to the constitution, all instruction given must be in harmony with "Reformed Principles." The various branches of study, therefore, are considered from the standpoint of faith, and in the light of Calvinism as a life and world view. Herein lies the distinctive character of our college.

EQUIPMENT

The school building is a modern structure of red brick, trimmed with gray stone, and is furnished with the latest conveniences. The recitation rooms are cheerful, well lighted, and ventilated.

A new campus, containing ten acres, a gift from the citizens of Grand Rapids, and located about a mile east of the present campus, has recently come into the possession of the school. Preparations are being made for the erection of new buildings on this property.

The reading room and library are open to the students during study hours. Books may also be taken from the library, subject to certain

rules. In the reading rooms various papers and magazines are found. The library contains many valuable works, and owing to the liberality of one of its patrons is in the possession of a handsome endowment fund. There is still, however, great need of enlarging it, and gifts, in the form of either books or money, will be highly welcome. The laboratories are equipped with useful apparatus, to which additions are made from time to time.

ADMISSION AND ADVANCED STANDING

Applicants for admission to the first class of the Preparatory School are accepted on the presentation of a certificate from a good school, testifying that they have finished the work of the eighth grade or on passing the examination in the branches taught in the Grammar School. In exceptional cases, promising young men of mature years, who desire to study for the ministry, but have not had the required preliminary training, may be admitted to the first class of the Preparatory School on probation. All applicants must, however, present a satisfactory written testimonial of good moral conduct. Those who intend to study for the ministry must in addition present a recommendation from their constituency.

Candidates for advanced standing will be placed in the highest class for which they seem fit. No credit, however, will be given for subjects taken elsewhere, until a student has shown, during the first semester in attendance, ability to keep up with his work.

Students who come from other schools and present branches of study different from those taught at our school may receive credit for such, provided these are subjects of equal educational value.

All testimonials, certificates, or records of work done elsewhere should be presented *on the day when the candidate applies for admission*. Students expecting advanced credit for work done at other institutions should bring *full credentials*.

After a student has enrolled for a study, he may not drop it without permission from the Principal; neither may he change his course of study without such permission.

Students who are not candidates for graduation may, in as far as

the schedule of recitations allows, take such studies as their preparation qualifies them to pursue with profit. Bible study, however, must be taken by every student.

The regular time for admission is at the beginning of the academic year in September. During the current school year, however, the Faculty has the right to accept students that meet the requirements.

DISMISSION

Students are amenable to the regulations of the school from the time of their arrival; it is but right to add here that the general disposition of the students is such as to require but seldom a formal enforcement of these regulations. Should a student's conduct, however, become detrimental to his own or the school's best interest, the Faculty will suspend him after due warning, and in case no improvement results, the withdrawal of such a student may be required. Any student in good standing may, upon his request, receive honorable dismission.

EXAMINATIONS

The examinations held in this institution at the close of the first semester and of the entire school year, are either written or oral. Generally speaking, they are conducted by the Faculty and passed upon by a committee of the Board of Trustees.

PROMOTIONS

At the end of the year the Board of Trustees, upon recommendation of the Faculty, promotes students to more advanced work. The promotion is based in part upon the class work, in part upon examinations during the year, which may be either oral or written, or both, as may be thought best by the professor in charge of the branch, and in part upon the final examination. Should the average standing in any subject at the end of the school year be below 75 per cent., the student will be promoted to a higher class only on condition that the deficiency be made up.

A student, who, at the end of the school year, has conditions in branches representing more than ten hours of instruction a week, is

"not passed," that is, must upon return repeat the work of the class the following year. Such a student may be excused by the Principal from a branch in which a high standing was received, provided the teacher of the branch gives his approval.

Conditions received in January, as well as in June, may be removed only at the supplementary examination held for that purpose on the first Friday and Saturday of the school year. If a student desires to be examined for the removal of a condition, he must, at least three days prior to the time set for the examination, notify the instructor that he will be in attendance.

A student, who, at the supplementary examinations, fails to reduce his condition to at least six hours of instruction a week, must repeat the work of the preceding year.

A student, who, at the supplementary examination, succeeds in reducing his conditions to at least six hours will be allowed to pursue the work of the next higher class in the studies which are not in continuation of those affected by the condition.

As for the continuation of a study in which a condition was received and not removed, the teacher in charge will determine whether the student is able to take up the work of the next higher class.

What course is to be pursued in the case of a student who is not prepared for more advanced work is to be determined jointly by the Principal and the instructor of the subject.

Report cards are sent out to the parents at the end of each semester. If the work of any student is not satisfactory, parents are notified early in the semester.

DIPLOMAS

The School issues diplomas as follows:

To those who have completed the work required for graduation in the Preparatory School. These diplomas, that of the Teachers' Course excepted, admit, without examination, to the University of Michigan, as well as to our own College Department.

To those who have finished the required number of hours of work in the College Department.

To those who have finished the three years' course in Theology.

To those who have finished the course in Theology and the seven year Seminary Preparatory course the degree of Bachelor of Arts will be granted.

When no full course is completed, a statement is given of the studies in which the student passed examination.

No diploma will be granted for less than one year's resident work, which must be the year immediately preceding the granting of the diploma.

TERMS AND VACATIONS

The school year of thirty-six weeks is divided into two semesters of eighteen weeks each.

Two vacations are given during the year: A vacation of two weeks at the Christmas holidays, and a spring vacation of one week at Easter. Students are required to remain on duty until the last school exercise preceding a vacation is completed, and to be present at the hour of opening, after a vacation.

STUDENT ORGANIZATIONS

There is a gathering of teachers and students, "Krans," every Friday afternoon, which has for its object the cultivation of elocution and the acquisition of knowledge. The exercises consist of sermonizing, delivering orations, and essays. Criticism of the productions rendered is given by both students and teachers. Attendance is required of all those who study for the ministry, and have advanced as far as the third class of the Preparatory School.

The male students have a literary society, "Corps," with three divisions, which meets every two weeks for debate and other literary exercises. The spirit of the society finds expression in its motto: *Credimus ut Intelligamus.*

The young women also have organized a literary society. Meetings are held regularly, and both profit and pleasure are derived from the varied programs which are rendered.

A society including all student subscribers publishes a monthly,

"Calvin College Chimes." During the nine years of its existence this periodical has been uniformly well edited and wisely managed, and is at present in a flourishing condition. Every alumnus who wishes to remain in contact with the life at his Alma Mater should be a subscriber.

All student organizations are under the supervision of the Faculty and Board of Trustees.

RELIGIOUS CULTURE

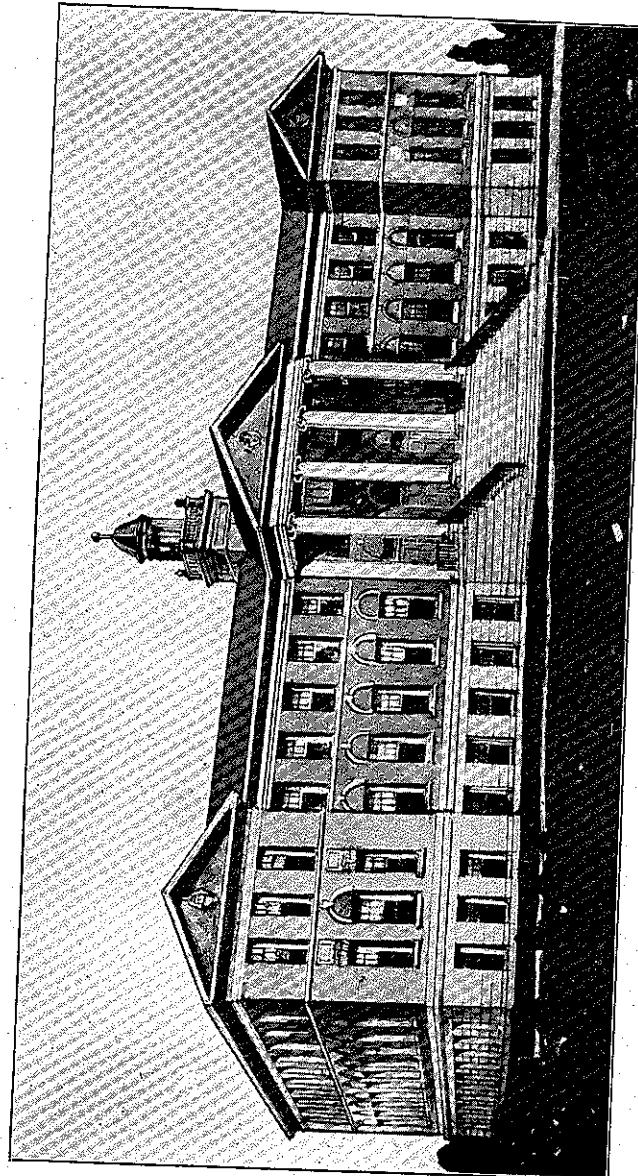

Each school day is begun with devotional exercises held in the Chapel at 8:10 a. m. Religious instruction, either doctrinal or historical, is given in all classes. Classes have been organized by the students themselves for the study of missions and mission literature.

On the Sabbath students are expected to worship regularly with the churches in the city. Abundant opportunity is offered in the city and vicinity to those students who wish to engage in Sunday School instruction or other kinds of Christian work.

Every student above the second year is visited by some professor at least once in a school year. The object of the visit is not only to speak with the student about methods of study, difficulties encountered in the work, habits of living, but especially to be a help to him in his spiritual life. The college believes that the religious as well as the intellectual side of a student's life should receive due attention.

LECTURE COURSE

Realizing the need and beneficial effects of contact with other minds, "Corps" has undertaken the establishment of a lecture course, which this year consists of nine members. From the nature of the institution, however, it is evident that the ordinary lyceum lecturer cannot appear under its auspices. In this way the obtaining of suitable speakers becomes somewhat difficult. Among those who have lectured to us may be mentioned Dr. F. L. Patton and Prof. J. G. Machen, of Princeton Theological Seminary, Dr. C. R. Gregory of Leipsic, Germany, and Dr. H. E. Dosker of Louisville, Ky.

Main Building to be erected on the New Campus

ALUMNI ASSOCIATION

The Alumni Association, composed of the graduates of both Seminary and College, aims to promote the interests of both Alma Mater and Alumni.

The officers of the Association for the present year are as follows: President Rev. E. J. Tuuk; Vice-President, Rev. R. B. Kuiper; Secretary-Treasurer, Rev. W. P. Van Wyk.

EXPENSES

The tuition fee is thirteen dollars per semester; for two from the same family, ten dollars each; no further reduction is made in case more than two from the same family attend. Further, those living west of the Mississippi and east of the Ohio, will be required to pay only one-half of this amount; while those whose home is west of the Rocky Mountains will be permitted to attend free of charge. Half of the tuition fee must be paid to the treasurer in the month of September, the other half during the month of February.

In some laboratory courses an extra fee will be charged to cover cost of material, wear and tear of instruments, etc. The laboratory fees must be paid before the corresponding courses are begun.

The examination fee in the Preparatory School is five dollars. The same fee is charged at the completion of any College Course. These fees must be paid before admission to the final examinations.

Board with room, fuel and light, in good families, is furnished for from three and one-half to four dollars a week. In the dormitory connected with the School, board and room may be had at an even lower figure.

Expenses, including board, room rent, fuel, light, washing and text books, are from two hundred and fifty dollars up.

MAINTENANCE AND ENDOWMENTS

For these the School is indebted largely to the kind and generous support of the members of the Christian Reformed Church. From year to year, with the growing of the church, the contributions have become

larger, and have met the demands of the School, while it has in turn supplied the church with pastors who have shown themselves pious and active workers for the cause of Christ.

The interest accruing from an Endowment Fund of about \$50,000 also contributes to the support of the school.

In recent years some special donations and legacies have been received. In this way, for example, the school has come into possession of a Fox Typewriter, a modern machine, and a great convenience to those who are charged with the correspondence of the school.

But larger gifts can be recorded. Of late years the Seminary and College both were enriched by two munificent bequests, one from the estate of Mr. Tobias Koffers, of Holland, Mich., amounting to \$12,000, and the other from the estate of Mr. Thomas M. Peck, of this city, amounting to \$10,000. The names of these generous friends will ever be held in grateful remembrance by all to whom the institution is dear.

The College is still greatly in need of new buildings and a larger endowment. Gifts and bequests are, therefore, very welcome. Should there be any among the friends of this school whom God has richly blessed with means, may they remember that no money is so well invested as that which is invested in an institution that gives young people a Christian education, in souls and lives rather than in material things. The Church, the state, and society depend upon Christian colleges and seminaries for leaders and workers; hence, money expended for the support of such institutions is money spent for the advancement of the Kingdom of God upon earth.

The corporate name of the school is "Theological School and Calvin College." All who wish to remember the institution in their wills should use this title, and state specifically the purpose for which they wish their bequest to be used.

INFORMATION

The Principal will be glad to furnish all possible information with reference to the Preparatory School and College. More particularly those desiring private boarding places should apply to Prof. Van Haitsma. Correspondence is cordially invited.
