Directions

From the south: Drive north on the East Beltline, past Burton Street. When you pass under the overhead walkway, watch for an exit lane on the right. Exit the Beltline and drive straight in to a circular parking area. The BIC is down the paved path east of the parking area.

From the north: Drive south on the East Beltline past Lake Drive, and exit at the first opportunity to the right. Make a left onto a campus road, and left again at the next intersection. Go under the Beltline, then left at the fork. Continue until you see the circular BIC parking area on your right.

Parking

The arrows on the map show the bus drop off area and parking in the cul-de-sac entrance to the Ecosystem Preserve and the location of the Bunker Interpretive Center (BIC). Cars should park in the designated Ecosystem Preserve spaces immediately north of the bus drop off area. Do NOT park in student parking lot 13 to the north. Additional parking is available in the Prince Conference Center Parking Lot. To reach the BIC from the Prince lot, go through the Prince Conference Center, and at the back of the building is a trail that leads to the BIC.

All programs begin at the Bunker Interpretive Center.
