

**CALL FOR PAPERS**  
for the  
**Christian Engineering Education Conference**  
**CEEC-2009**

*Engineering on a Firm Foundation*

Waco, Texas  
June 17-19, 2009

*Immediately following the 2009 meeting  
of the American Society for Engineering Education (ASEE) in Austin*

Abstracts of 200 to 400 words are now being accepted for the 2009 Christian Engineering Education Conference. Proposals for panel discussions and breakout sessions are also welcome. The deadline for submissions is Dec 31, 2008. Final papers for accepted abstracts will be due April 1, 2009. Suggested topics include but are not limited to:

- Engineering as a Christian Vocation
- Witnessing to the Engineering Profession through Work
- Integrating Faith and Learning in the Engineering Classroom
- Defining Christian Scholarship in Engineering
- Engineering Problems that Christians Ought to Care About
- Mentoring Students for Kingdom Careers in Engineering
- Engineering, Technology and Ethics
- Interactions Between Technology and Culture
- The Influence of Christians on Technology
- The Relationship between the Church and Technology
- A Christian Approach to Philosophy of Technology
- Christian Engineers and Academic Culture
- Opportunities for Inter-School Cooperation
- Sustainable Design
- Diversity, Reconciliation, and Justice in Engineering and Technology

Proposals on topics of general interest to Christian engineering education are also welcome. Conference information is available at the CEEC website: <http://engr.calvin.edu/ces/ceec>

After acceptance, authors must prepare a written paper for publication as well as a 20-minute oral presentation of their work. Proposals for panel discussions should include a topic and suggested panelists.

Forward abstracts and proposals to the Assistant Program Chair:
