About the City:
The City of Wyoming is the second largest city (behind Grand Rapids) in Western Michigan. It has a population of over 72,000 people and covers a land area of 24.5 square miles. It has a diverse cultural base, contains a balance of older and modern homes, and is known for its abundance of parkland.

My Internship:
This summer I was an engineering intern for the city and I worked out of the Public Works Building. My supervisors were Carlos Caceres and Russ Henckel, who are both professional engineers. My primary job was to lay traffic counters at most of the major intersections, assist my supervisors with various projects, and help out the two inspectors in the office. Apart from laying traffic counters I performed a wide variety of tasks throughout the summer including:
• Miss Digs
• Construction Project Observation and Inspections
• ADA Sidewalk Ramp Inspections
• Creating Bid Estimates
• Updating regional GIS system
• AutoCAD Plan Review and Corrections

Projects I Worked On:
• Rathbone Sanitary Sewer Replacement
• Avon Ave and Meyer Ave Watermain Replacement
• 32nd and 36th St Resurfacing Project
• Burlingame Ave Bridge over Buck Creek Rehabilitation
• Buck Creek Bike Path Rehabilitation
