

# NTH Consultants, Ltd.

Rachel Koopman  
Senior Year  
Civil/Structural Concentration

NTH Consultants is a geotechnical, environmental engineering firm. As an intern at this firm I was given the opportunity to be involved in office work as well as field work.

## Tasks:

- Oversaw the removal of an underground storage tank
- Oversaw sewer cleaning and camera work
- Collected groundwater samples using a variety of different techniques and from many different sites including capped landfills and construction sites.
- Observed degrading structural timber beams, failing brick facade, etc.
- Gathered and documented necessary Phase I sites
- Worked in the lab
