More and more people today are exclusively using a cell phone. Landline systems preexisting in houses and other buildings are lying unused. People have to bear the cost of paying for two phone bills. Landline systems lack many of the conveniences and options that cell phones offer. Relying on cell phones requires users to carry their phone around the house. CellSync will allow the user to avoid these inconveniences by integrating cell phone and landline technology.

CellSync:
- Integrates landline and cell phone technology
- Send/Receive calls on your landline through your cell
- Affordable and easy to use
- Use cell phone features on your home phone
  - Text messaging
  - Voice dial
  - Voicemails
