Weekly Status Report

Author | Team 12: Becca, Ian, Joel, Justin

Project | The Warner Drain Remediation
Issued | 2/6/2009

Distribution List
Client | Professor Wunder – Team Advisor

1. Summary of Current Status

1. Looking Back
   Drain Commission Board of Determination meeting to determine necessity of work on Warner Drain. This meeting helped focus area of primary concern.

   Completed first model (Interim).

   Met with Brad Boomstra, KCDC engineer, to discuss accuracy of model.

2. Looking Ahead
   Make changes to HMS and RAS models per Brad Boomstra's recommendations.

   Expand model to include downstream reaches. Possibly connect to Spicer Group’s model of the Knight Drain to see even further downstream.

   Update Gantt Chart and website

   Set up Work Change log in Excel to keep track of changes made and alternatives tested.
2 Happiness Index

1 96/100

3 Missed Deliverables

1 None

4 Planned Activities for Next Period – Ending 2/13/2009

1 Complete Model 1
2 Begin Model 2 (delineate sub-areas, setup CN and Tc)
3 Update Gantt Chart and website

5 Deliverables and Milestones – Blueprint
