**Grand River Rapids: Site Planning**

**Fish Ladder**
- This site has onsite parking and upstream access. It requires a floatable dock, lighting and signage.

**Canal Street Park**
- This site has parking access and a man-made cove. Recommendations include a floatable dock, safety and guide signs, and guard rails.

**Safety Concerns**
- Lighting provides safety and decreases vandalism.
- Floatable docks provide safe access with the changing elevation of the Grand River.
- Signs will inform, guide, and warn paddlers before entering the river.

**Ford Museum**
- This site has sloped access and onsite parking. Additional needs are lighting, guard rails, and signage.

**Fulton Street Site**
- This site has a handicapped accessible ramp. It requires a floatable dock, guard rails, and signage.
