1. Introduction
   1.1. Team Description
   1.2. Problem Statement
2. Design Considerations
   2.1. Project Objectives
   2.2. Design Norms
   2.3. Alternative Solutions
3. Project Organization
   3.1. Schedule
   3.2. Task Breakdown
4. Preliminary Design Method
5. Design Parts
   5.1. Adjustable Ski
      5.1.1. COF Analysis
      5.1.2. Ski Analysis
      5.1.3. Collapsible Design
   5.2. Gearing System
      5.2.1. Size Selection
      5.2.2. Design Style
   5.3. Back Tread
      5.3.1. Material and Tread Selection
      5.3.2. COF Analysis
      5.3.3. Design
   5.4. Braking System
      5.4.1. Current Braking System
      5.4.2. Brake Design
      5.4.3. Design Alternatives
   5.5. Seat and Adjustment
      5.5.1. Seat Sizing
      5.5.2. Seat Adjustment
   5.6. Pedal Redesign
      5.6.1. Proposed Design
      5.6.2. Alternatives
   5.7. Corrosion Resistance
      5.7.1. Material Selection
      5.7.2. Design
6. Budget
   6.1. Prototype Cost Estimates
   6.2. Business Plan
7. Future Work
8. Conclusion
  8.1. Christian Perspective
  8.2. Stewardship
