ENVIRONMENTAL AND ENERGY SUSTAINABILITY COMMITTEE

Mandate
The Environmental and Energy Sustainability Committee shall be responsible to:

1. Advocate for the implementation of the Calvin Statement on Sustainability.
2. Serve as a structure for the exchange of information and communication among the decision-making units that influence environmental and energy sustainability.
3. Recommend to responsible parties environmental stewardship and sustainability standards and guidelines for campus services and activities.
4. Track progress of sustainability efforts on campus and present annual reports to the Faculty Senate.

Reporting Relationship
The Environmental and Energy Sustainability Committee will report to the Faculty Senate.

Composition
Eleven members:

- Director of the Calvin Environmental Assessment Program
- Director of the physical plant (or designee with on-campus energy management experience)
- Coordinator of recycling program
- One at-large staff member
- A student representative of the Environmental Stewardship Coalition
- A Student Senate representative
- The vice president of administration and finance (ex officio)
- A faculty representative of the Plaster Creek Stewards leadership team
- A faculty representative of the Sustainability Summit leadership team
- A faculty CERF mentor
- A representative of Residence Life staff involved in sustainability

Among the faculty ESC members, all three academic divisions shall be represented and one will serve as chair.
