Calvin College Summer Tuition Assistance Program

Required Hours - Calvin College will pay for one-half the cost of **ONE (1)** summer course for students who work full-time on campus between May 21 to September 2, 2006. Students must work full-time during the last two weeks of this period unless the supervisor chooses not to require it.

Full-time work is defined as an average of 35 hours per week for at least 12 weeks during the 15-week summer, or at least 420 total hours. Part-time hours-worked in more than one department may be counted toward the 420 hours needed.

It is suggested that the student not work more than 20 hours per week during the time they are enrolled in a full credit summer class. The student may not work more than 40 hours per week, regardless of the number of jobs.

Before a student may enroll in a summer course, the student's supervisor must agree to an alternate work schedule during the period of enrollment that will not inconvenience the department.

Crediting Student Accounts - The completed application **MUST** be turned in to the Financial Services Office by the following dates:

<i>Session</i>	<i>Deadline Date</i>
1	May 19, 2006
2	June 19, 2006
3	July 20, 2006

At the end of the summer the student will be charged in full for a course already taken if they have not worked the minimum number of hours required or have not met the other conditions of the program.

Each student must use the benefit from this program during the summer of 2006.

The program will cover one-half the cost of tuition for **ONE (1)** class after all financial aid and discounts have been applied. Students will not receive summer tuition assistance for a tutorial, independent study, internship or master's thesis.

The class must be completed to receive this tuition waiver. Students may not receive a partial waiver for completing part of the class.

Non-eligible students - Students who were not at least half time at Calvin during the last academic year are not eligible for the program.

Office use only
