Foreword

Calvin College is deeply committed to the idea that Christians are called to be agents for a redeemed creation. This booklet is an account of some ways Calvin College faculty members have attempted to be faithful to this mission. It highlights the research and scholarship paths through which the faculty have served the academy, the church and society. Here is the record for the period of July 1, 2002 through June 30, 2003. This collection illustrates the many ways Calvin professors have advanced the frontiers of knowledge, pursued useful research, and developed new artistic and musical expression, thereby encouraging and displaying the coming kingdom of our God. We submit this record with a humble desire to be accountable for the privileges we have been given to pursue such work at Calvin College. We hope we have been faithful to our calling.
