The Computer Science and Engineering Department at Oakland University invites students to apply to its second summer of an NSF-funded Research Experience for Undergraduate students. The students selected to participate will be immersed in a research environment under the mentoring of CSE faculty and will conduct research in Intelligent Information Engineering. This program is a full-time comprehensive educational experience targeted to women in particular. Participants will receive a stipend of $3,600 for the ten weeks, meal allowance, and travel subsidy for either travel to and from the program or to attend a conference.

**Program features:**
- 10 weeks full time research program from May 14th through July 18th. Students can not be working or taking classes at the same time.
- Research in teams of 2 under close supervision by CSE faculty.
- Variety of research topics available in Intelligent Information Engineering.
- Students receive a stipend of $3,600, meal allowance, and travel subsidy for either travel to and from the program or to attend a conference.

**Requirements:**
- Program open to all non-graduating undergraduate students (US citizens and permanent residents, preferably women) with an interest in Computer Science and Engineering
- Students will be selected based on statement of interest, GPA and letters of recommendation.

Information and Application Forms are available at: [www.cse.secs.oakland.edu/reu](http://www.cse.secs.oakland.edu/reu)
