

Connecting a Laptop to the Media Manager Lectern

For further assistance, call the HelpDesk at x6-8555 or go to the URL listed below:

http://www.calvin.edu/it/services/smartclassrooms/sc_mml_with_laptop.htm

Towards the upper right portion of the Media Manager Lectern's work surface, there is a 7"W x 3-1/4"D cable management grommet (it looks like an embedded box that has a black flap/top that can be opened or closed). Normally, there is a label on it with the words "Network & Power".

This portion of the Media Manager Lectern contains the power and communication modules that are perfect for connecting a laptop to Calvin's internal network as well as to the Internet.

(See other side for further details)
