

Smart Board in FAC222

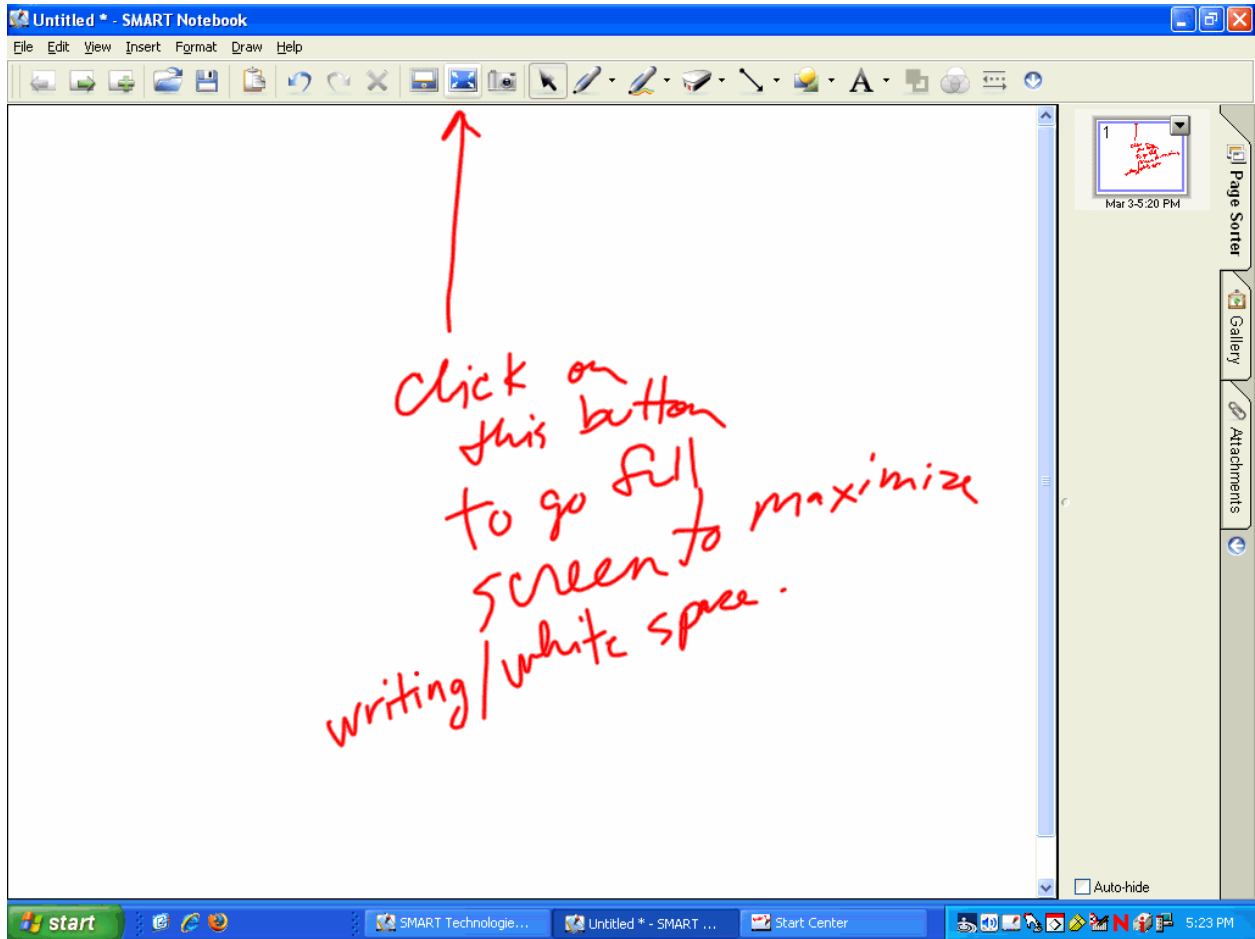

To get a white screen that you can write on, click the **Smart Notebook** icon:

...alternatively, you can go to Start > Programs > Smart Board Software > Notepad Software

Now I have a
lot of room to write on the
← white board. →

Ctrl + A

on the computer's
Keyboard quickly
Selects everything on the
screen. Good for
deleting everything...

Use this button to get out of full screen mode.
