A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?

3. What is your favorite zoo animal?

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?
   - under 1 hour
   - 1–2 hours
   - 2–4 hours
   - 4–8 hours
   - more than 8 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?
   - Surprising
   - Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?
   - Yes
   - No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   - If Program A is adopted, 400 people will die.
   - If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

Which of the two programs would you favor?
   - A
   - B

9. A national survey of college students revealed that Calvin professors assign an amount of homework that “is fairly typical for institutions of its type.” How does this finding compare with your experience at Calvin?
   - A That sounds about right to me.
   - B That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?
   - black
   - sky blue
   - kelly green
   - fuchsia
   - other: _______________________

3. What is your favorite zoo animal?
   - giraffe
   - lion
   - elephant
   - other: _______________________

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?
   - none
   - under 1 hour
   - 1–2 hours
   - 2–4 hours
   - more than 4 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?
   - Surprising
   - Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   - Yes
   - No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   - If Program A is adopted, 400 people will die.
   - If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

Which of the two programs would you favor?  A  B

9. A national survey of college students revealed that Calvin professors assign an amount of homework that “is fairly typical for institutions of its type.”
How does this finding compare with your experience at Calvin?
   - A That sounds about right to me.
   - B That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

   - Surprising
   - Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?
   - Yes
   - No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   - If Program A is adopted, 400 people will die.
   - If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

Which of the two programs would you favor?    A    B

9. A national survey of college students revealed that Calvin professors assign an amount of homework that “is fairly typical for institutions of its type.”

   How does this finding compare with your experience at Calvin?
   - A  That sounds about right to me.
   - B  That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?

3. What is your favorite zoo animal?

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?

   Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?

   Yes  No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:

   - If Program A is adopted, 400 people will die.
   - If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

Which of the two programs would you favor?  A  B

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “absence makes the heart grow fonder” is generally true. Do you find this result surprising or not surprising?
   
   Surprising  
   Not surprising  

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   
   Yes  
   No  

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   
   • If Program A is adopted, 400 people will die.
   • If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.
   
   Which of the two programs would you favor?  
   
   A  
   B  

9. A national survey of college students revealed that Calvin professors assign “significantly more homework that the nationwide average for an institution of its type.”
   
   How does this finding compare with your experience at Calvin?
   
   A  That sounds about right to me.
   B  That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?

3. What is your favorite zoo animal?
   giraffe  lion  elephant  other: ______________________

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?
   under 1 hour  1–2 hours  2–4 hours  4–8 hours  more than 8 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “absence makes the heart grow fonder” is generally true. Do you find this result surprising or not surprising?
   Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   Yes  No

5. How much time have you spent watching TV in the last week?
   under 1 hour  1–2 hours  2–4 hours  4–8 hours  more than 8 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?
   Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   Yes  No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   • If Program A is adopted, 400 people will die.
   • If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

Which of the two programs would you favor?  A  B

9. A national survey of college students revealed that Calvin professors assign “significantly more homework that the nationwide average for an institution of its type.” How does this finding compare with your experience at Calvin?
   A  That sounds about right to me.
   B  That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?

3. What is your favorite zoo animal?

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?

   under 1 hour  1–2 hours  2–4 hours  4–8 hours  more than 8 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “absence makes the heart grow fonder” is generally true. Do you find this result surprising or not surprising?

   Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?

   Yes  No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:

   - If Program A is adopted, 400 people will die.
   - If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

   Which of the two programs would you favor?  A  B

9. A national survey of college students revealed that Calvin professors assign an amount of homework that “is fairly typical for institutions of its type.” How does this finding compare with your experience at Calvin?

   A That sounds about right to me.
   B That doesn’t sound right to me.
A Little Survey

2. What is your favorite color?
   black  sky blue  kelly green  fuchsia  other: ________________________

3. What is your favorite zoo animal?
   giraffe  lion  elephant  other: ________________________

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?
   Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?
   Yes  No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   • If Program A is adopted, 400 people will die.
   • If Program B is adopted, there is a 1/3 probability that no one will die and a 2/3 probability that all 600 people will die.

   Which of the two programs would you favor?  A  B

9. A national survey of college students revealed that Calvin professors assign “significantly more homework that the nationwide average for an institution of its type.”
   How does this finding compare with your experience at Calvin?
   A  That sounds about right to me.
   B  That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?
   - black  sky blue  kelly green  fuchsia  other: ______________________

3. What is your favorite zoo animal?
   - giraffe  lion  elephant  other: ______________________

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?
   - under 1 hour  1–2 hours  2–4 hours  4–8 hours  more than 8 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “absence makes the heart grow fonder” is generally true. Do you find this result surprising or not surprising?
   - Surprising  Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   - Yes  No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   - If Program A is adopted, 200 people will be saved.
   - If Program B is adopted, there is a 1/3 probability that 600 people will be saved and a 2/3 probability that nobody will be saved.

Which of the two programs would you favor?  A  B

9. A national survey of college students revealed that Calvin professors assign an amount of homework that “is fairly typical for institutions of its type.” How does this finding compare with your experience at Calvin?
   - A That sounds about right to me.
   - B That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to purchase the ticket, you discover that you have lost a $20 bill. Would you still pay $20 for a ticket to see the play?
   
   Yes    No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:

   • If Program A is adopted, 200 people will be saved.
   • If Program B is adopted, there is a 1/3 probability that 600 people will be saved and a 2/3 probability that nobody will be saved.

   Which of the two programs would you favor?   A    B

9. A national survey of college students revealed that Calvin professors assign “significantly more homework than the nationwide average for an institution of its type.”
   
   How does this finding compare with your experience at Calvin?

   A  That sounds about right to me.
   B  That doesn’t sound right to me.
A Little Survey

1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?
   - black
   - sky blue
   - kelly green
   - fuchsia
   - other: ________________________

3. What is your favorite zoo animal?
   - giraffe
   - lion
   - elephant
   - other: ________________________

4. Measure and record your pulse.

5. How much time have you spent watching TV in the last week?
   - none
   - under 1 hour
   - 1–2 hours
   - 2–4 hours
   - more than 4 hours

6. Social science researchers have conducted extensive empirical studies and concluded that the expression “out of sight out of mind” is generally true. Do you find this result surprising or not surprising?
   - Surprising
   - Not surprising

7. Suppose that you have decided to see a play for which the admission charge is $20 per ticket. As you prepare to enter the theater, you discover that you have lost your ticket. Would you pay $20 to buy a new ticket to see the play?
   - Yes
   - No

8. Suppose that the United States is preparing for the outbreak of an unusual Asian disease that is expected to kill 600 people. Two alternative programs to combat the disease have been proposed. Assume that the exact scientific estimates of the consequences of the programs are as follows:
   - If Program A is adopted, 200 people will be saved.
   - If Program B is adopted, there is a 1/3 probability that 600 people will be saved and a 2/3 probability that nobody will be saved.

Which of the two programs would you favor?  A   B

9. A national survey of college students revealed that Calvin professors assign “significantly more homework that the nationwide average for an institution of its type.” How does this finding compare with your experience at Calvin?
   - A That sounds about right to me.
   - B That doesn’t sound right to me.
1. Write down any number between 1 and 30 (inclusive).

2. What is your favorite color?
   - black  sky blue  kelly green  fuchsia  other: ________________
