Preferred Name (first and last): ________________________________

1. What is your major? (Check all that apply.)
   - Chemical Engineering
   - Civil Engineering
   - Electrical Engineering
   - Mechanical Engineering
   - Other: ________________________________

2. Think back to the courses where you have learned the most (especially mathematics courses). What made these courses better than others? What sorts of things help you learn mathematics well?

3. How much did you use Mathematica in your calculus courses? What would you feel comfortable doing in Mathematica?

4. If it were up to you, what software would you prefer to learn to use for this course?
   - Mathematica (may have used for calculus, have to use in lab or buy for your own computer)
   - Sage (open source, can be used via the web)
   - Don’t care.

5. What is the best movie you have seen or book you have read in the last year or two? (Tell me why if you like.)

6. List one interesting fact about yourself.

7. Anything else you would like me to know about you:
