A. INTRODUCTION
Calvin College club sport’s governance, activities, and programs are considered an integral part of the college’s educational program. We wish to provide an environment in which each student can develop intellectually, socially, emotionally, physically, and spiritually for a life of service in Christ’s kingdom on earth. As part of an academic community, we want to encourage all members of the community to develop their gifts and learn to celebrate life together through meaningful experiences. We recognize that although play and recreation opportunities are often stimulating and useful to the educational experience, they can become distorted and, at times, may interfere with the goals and purposes of Calvin College. Therefore, in our efforts to maintain the integrity of club sports within the college experience, this handbook has been developed to serve as a guide for all participants. Each club sport captain and advisor/coach are expected to be familiar with the policies and operating procedures and see that they are circulated and followed by all club sport members.

The Student Life Division and Department of Health, Physical Education, Recreation, Dance and Sport (HPERDS) collaborate in the approval and administration of club sports. Club sport members are responsible for establishing their goals and designing programs to carry out the goals. An advisor or college employed coach guides and facilitates the club members in meeting their goals and objectives.

B. PURPOSE
To provide Calvin College students who have a common sport or competitive physical activity interest an opportunity to participate even when that sport is not offered as a varsity or junior varsity level.

To provide Calvin College students with co-curricular leadership opportunities through the formation, governance, and participation in club sport activities.

To provide Calvin College students an opportunity to further their skills, experience competitive events, and enjoy social interactions.

Tournaments must be specifically approved by the Club Sport Mentor. Club sports may participate in a maximum of 26 contests, no more than 15 contests per semester. The schedule of contests should be made in such a
way as to minimize absence from classes. Consistent with Athletic policy no competition or practice may take place on Sunday.
